

Santa Special 13th December 2009

The grotto is set up and track cleared of any obstructions

The light are put up and chairs laid out for the band

The air filled with the smell of oil steam and coal as the engines raised steam

Pete prepares his loco for a long cold day

Bob unloading the C19

Bagnall 040

George is just about ready

Santa's train arrives in the park

Santa in a cloud of steam

Santa and his helper await the first customers of the day

On Behalf of the LSME Committee and club may I thank all visitors and members who made the day possible and we hope to see you again next year.
