

What's New?
Happy New Year
Progress report Week 1

Ice has to be scraped from the rails before engines can run on the raised track.

Due to the snow and ice little progress has been made with maintenance on site however a many members braved the cold on new years day to run their engines.

For more photos please see the events section.

Members

Please note weather permitting we are having a working weekend on the Saturday the 23rd and Sunday the 24th of January to do major projects like the entrance road and re laying of track. Please can you let Malcolm know if you are able to help on these days.
